We are craftspeople. We are musicians. We are KitSound™
And we all commit ourselves to achieving one shared goal:
Bringing people closer to their music. By truly understanding
music we stay true to its craft. Pure, rich, incredible sound.
We’ll settle for nothing less.
Please read this manual carefully before use.

Box contents
- KS MyJack
- Charge cable
- 3.5 mm aux cable
- User manual

Functions
1. Multi Function Button (MFB)
2. Micro USB Charging Port
Instructions for use

Getting started

• To turn the receiver on press and hold the MFB (1) for 3 seconds
• To turn the receiver off press and hold the MFB (1) for 3 seconds
• The receiver will shut down automatically if no action in ten minutes

Charging

It is recommended that you give the MyJack a full charge before its first use.

1. Plug the micro USB end of the charge cable into the MyJack micro USB charging port (2)
2. Plug the standard USB cable end into either a computer or a USB mains charger
3. The MFB (1) will be solid red whilst charging
4. When charging is complete, the MFB (1) will be solid blue

Note: It may take up to 1.5 hours before the MyJack is fully charged.
Pairing the receiver to your device

Before you can use the receiver via Bluetooth, it will need to be paired to your device.

To do this:
1. Press and hold the MFB (1) for 6 seconds. This will turn the receiver on and will automatically enter pairing mode. The MFB (1) will flash red and blue when in pairing mode.
2. Turn your device’s Bluetooth ON and search for new devices.
3. When the KS MyJack appears in the list, select it and if asked for a passcode, enter ‘0000’.
4. The receiver should then be paired to your device.
5. The receiver will automatically pair to the last device it connected to when turned on.

Note: Pairing mode will be active for 3 minutes. After this, the light will slowly flash blue. To re-activate pairing mode, turn the receiver off and follow the instructions as above.

Please note you can have two devices paired to the KS MyJack at any time.
Playing music through your receiver

Aux-in/Bluetooth
If already connected to the receiver via Bluetooth, simply plug the MyJack into the aux-in port of the speaker/stereo. Whilst playing music please use your device to change volume/track. To play/pause songs through the receiver short press the MFB (1).

Call handling
The receiver can also take and receive calls when connected.

Answer phone call  short press MFB (1)
Reject phone call  press MFB (1) for 1 second
Hang up the call  short press MFB (1)
Redial last number  short press MFB (1) twice
Cancel dialling  short press MFB (1)

Note: If your aux-in port is located within the glove box and the glove box is closed, you may have problems talking over the phone as the MIC won’t be able to pick up your voice.
Aux-in extension cable

If the KS MyJack doesn’t fit into your aux-in port because of a tight space you can insert the extension cable into the aux-in port and then connect the KS MyJack into the other end.

Battery

• Low battery alarm will indicate there is 5 minutes left of battery
• After 5 minutes the MyJack will turn off

Care for your KS MyJack

Please DON’T:

• Get the MyJack wet
• Drop the MyJack as this will invalidate your warranty
• Open up the MyJack. There are no user serviceable parts inside
• Expose the MyJack to extreme temperatures or rapid changes of hot to cold or vice versa

Please DO:

• Clean the MyJack with a soft dry cloth and no detergents

Troubleshooting

We hope you’ve now got all the information you need to get started, but if you’re having problems with anything, please feel free to contact us at: support@kitsound.co.uk

Please do not attempt to open this product. There are no user serviceable parts inside, in particular if your product has an embedded, non-replaceable battery, do not attempt to access or remove the battery as this may cause personal injury and will damage the product.

Making any attempt to open the product or carry out repair voids any and all warranties

We apologise for any inconvenience caused by minor inconsistencies in these instructions, which may occur as a result of product improvement and development.
